EXPERIENCE

April 2023 - Present
DATA PROCESSING ANALYST

Data Processing Team - Operations Area
IPSOS ARGENTINA

- Analysis, cleaning, and processing of databases using SQL (intermediate level), IBM Base Professional (MDD/DDF), SPSS Statistics/Reporter, and advanced Excel, ensuring data quality and consistency.
- Data extraction and validation using SQL for quality control, cross-referencing, and preparing datasets for analysis and reporting.
- Design and programming of questionnaires in IBM Base Professional, ensuring correct data structure from the initial capture stage.
- Coding of open-ended responses and quality control, applying validation rules and end-to-end project tracking.
- Generation of reports and operational coordination of a team of 20 external vendors, optimizing delivery times and quality standards.

May 2022 - March 2023
DATA PROCESSING TRAINEE

Internship Contract
Operations Area
IPSOS ARGENTINA

- Support in processing and cleaning databases using IBM Base Professional (MDD/DDF), SPSS Statistics/Reporter, and Excel, following guidelines defined by senior analysts.
- Data loading, validation, and quality control, assisting in the detection of inconsistencies and error correction.
- Coding open-ended responses according to established criteria, ensuring data consistency and quality.
- Assistance in preparing basic reports and outputs for analysis.
- Collaboration on operational tasks for data projects, adhering to deadlines, processes, and quality standards.
